

Approximately 7200 home fires between 2005 and 2015 in Rhode Island. Learn about the solution to stop these tragedies.

What: The Rhode Island Fire Sprinkler Coalition is offering a **free class** on home fire sprinklers, which can reduce the risk of dying in homes fires by an astounding 80 percent. Learn about NFPA 13D, *Standard for the Installation of Sprinkler Systems in One- and Two-Family Dwellings and Manufactured Homes*. Learn the truth about fire sprinklers, and how to review and inspect multipurpose and standalone sprinklers.

Continuing education units will be offered for building and fire officials

Where: East Greenwich Veterans Firemen's Association Hall, 80 Queen St, East Greenwich, RI

When: Tuesday, February 21, 2017, Registration 8:00, Class 9:00 – Noon, Demonstration 12:30

Register: The course is free, but space is limited. Registration is required. To RSVP, contact David LaFond. 413-244-7653, LaFond@nfsa.org
